EXPERIENCE

Web Developer (Frontend & AI Focused) Logistic Infotech Pvt. Ltd. | Onsite

Feb 2025 - Now

- Developed and maintained responsive web applications using **React.js** and **Next Js**, ensuring high performance and seamless user experience.
- Worked on **Agentic AI systems**, designing workflows that automate decision-making processes and enhance user interactions.
- Integrated **Generative AI (LLM-based features)** such as chat interfaces, smart suggestions, and automated content generation into web applications.
- Built real-time and scalable applications using **Convex**, including database design, server functions, and live data synchronization.

PROJECTS

Kalon AI (AI Content Generation Platform):

Tech: Next.js, Convex, ComfyUI, Generative AI Models

- Developed a full-stack AI platform enabling users to generate content using multiple models including **text-to-image, text-to-video, image-to-video, and chat-based LLMs**.
- Built a scalable frontend using **Next.js**, ensuring fast performance and smooth user experience.
- Integrated real-time backend services using **Convex** for data synchronization and server-side logic.
- Worked with **ComfyUI** to orchestrate and manage multiple AI models for content generation workflows.
- Designed intuitive UI flows for interacting with different AI models, improving usability and engagement.
- Optimized API handling and rendering for faster generation response times.

Zym AI Diet & Health Assistant (AI-powered Nutrition & Fitness Platform):

Tech: Next.js, MongoDB, LangChain, LangGraph, Vision Models

- Developed an AI-powered health platform that provides personalized diet and fitness recommendations.
- Implemented features like **calorie detection from food images** using vision models (e.g., LLaMA-based models).
- Built intelligent workflows using **LangChain** and **LangGraph** for daily diet planning, follow-ups, and adaptive recommendations.
- Enabled users to generate custom diet plans based on **available ingredients using Generative AI**.
- Created responsive frontend using **Next.js**, ensuring seamless user interaction across devices.

Memecoin Trading Platform (Crypto Automation Platform):

Tech: Next.js, API Integration

- Developed the frontend of a memecoin platform enabling users to **create and manage tokens**.
- Integrated multiple external APIs for **real-time trading and automation features**.
- Built responsive and dynamic UI using **Next.js**, focusing on performance and user experience.
- Collaborated with backend services to ensure smooth data flow and trading execution.

SKILLS

- **Programming Languages:** C, C++, JavaScript, Python
- **Frontend Technologies:** HTML, CSS, Bootstrap, Tailwind, React.js, Next.js
- **Backend & Databases:** Node.js, SQL, MongoDB, Supabase, Convex
- **AI & LLM Frameworks:** LangChain, LangGraph, LangSmith, n8n
- **Tools & Technologies:** Git, GitHub, Postman
- **Core Concepts:** Object-Oriented Programming (OOP), Web Development
- **Professional Skills:** Problem Solving, Analytical Thinking, Adaptability

EDUCATION

Bachelor of Technology (Information & Communication Technology) (CGPA: 7.65/10) Marwadi University Rajkot, Gujarat.	May 2021 – May 2025
12th (G.S.H.S.E.B) (Percentage: 84.4%) Creative Science School Rajkot, Gujarat.	May 2020 – May 2021
10th Standard (G.S.E.B) (Percentage 87.5%) Sarvodaya School Rajkot, Gujarat.	May 2018 – March 2019
